EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with R. William Beard, Jr., Reg. No. 39,903 on 15 May 2006.

The application has been amended as follows:

IN THE CLAIMS:

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

As per claims 11 and 20, the prior art of record taken alone or in combination fails to teach at least one bus system for the transmission of operating parameters and/or program code from the commissioning computer to at least one component comprising the drive system and the automation device and further from the commissioning computer to the operator-control computer and a decentralized peripheral connected to the automation device via the bus system between the drive system and the automation device.

As per claim 22, the prior art of record taken alone or in combination fails to teach a bus system for the transmission of operating parameters and/or program code from the commissioning computer to at least one component comprising the drive system and the automation device and further from the commissioning computer to the operator-control computer and connecting a decentralized peripheral connected to the automation device via the bus system for the transmission of information between the drive system and the automation device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
